June 19, 1946

Mr. Joshua Lederberg
Osborn Botanical Laboratory
Yale University
New Haven, Connecticut

Dear Mr. Lederberg:

Thank you for your letter of June 18.

We obtained the coli bacteriophage "C" from Dr. Ward MacNeal (Department of Bacteriology, New York Post-Graduate Medical School and Hospital, 303 East 20th Street, N.Y.C.). He probably could give you information as to when and where this virus was isolated. The only reference that I have concerning it is an article by Morton and Wasseen appearing in the Journal of Laboratory and Clinical Medicine, vol. 20, p. 1188, 1935.

With best wishes for a profitable and interesting summer.

Sincerely yours,

Margaret Holden.
